Our community is lucky to have several truly incredible organizations that are focused on inspiring, serving, and educating local youth. We think their work deserves a moment in the spotlight.

Right here in Nashua, organizations like **Girls, Inc.**, the **Boys & Girls Club**, **Nashua PAL**, and the **YMCA** are offering outstanding resources to kids in our community. These organizations have been a safety net for many during the uncertainty of the last few years. They have created special programming, provided educational support and enrichment activities, offered mentorship, and helped inspire kids to think about and work towards creating bright futures filled with opportunity. The ability of these organizations to reach out and offer much-needed support to young people, especially during the COVID-19 pandemic, has been life-changing for many.

"Young people are less at risk of severe disease and death from COVID-19 but will be the most affected by

the long-term consequences of the pandemic, which will shape the world they live and work in for decades to come."

- Dr. Tedros Adhanom Ghebreyesus, Director-General of the World Health Organization (WHO).

Perhaps the silver lining of the pandemic might, in the end, be that our kids will be more resilient than ever before thanks to the hard work, creativity, and support of local organizations like these.

Click on their logos below to learn more about their programs, how to support their mission, or how to volunteer.

Boys & Girls Clubs provide a safe way to learn and grow in a fun environment through life-enhancing programs and character development experiences.

At Girls Inc., girls learn to set and achieve goals, boldly confront challenges, resist peer pressure, see college as attainable, and explore nontraditional fields such as STEM.

Nashua PAL serves over 2,000 youth each year in 16 engaging and educational programs throughout Greater Nashua!

At the Y, children learn how to be their best selves. That makes for confident kids today and engaged adults tomorrow.

Gotta give a quick shout out to all of our community's Youth Sports Programs, Clubs, Educators/Schools & After School programs too! We could talk your ear off

about them, the strength they've shown over the last couple of years and the impact they are making with the Youth in our community as well. But we'll save that for another newsletter. ;)

We are highlighting the above organizations because we are proud to collaborate closely with them and are familiar with their like-minded programs.

We were thrilled to have the opportunity to participate in a program that the **Boys & Girls Club** created to expose 8th and 9th-grade students to real-world job opportunities.

The idea is to show students what kinds of jobs exist in our community and to demonstrate how one company can offer many different job opportunities. We loved having a group of students at our shop to introduce them to the world of screen printing and embroidery and to demonstrate how even a small business like ours employs people from many different career paths: sales, customer service, production, accounting, marketing, and design.
