We're always working to keep the shop fresh, improve the jobs of our team members, increase efficiency, take quality to the next level and find ways to keep our costs down while they raise all around us. Check out these recent shop improvements!

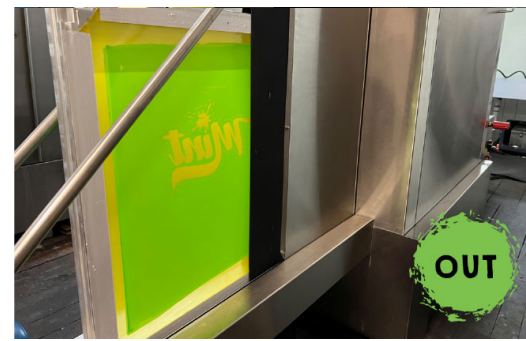

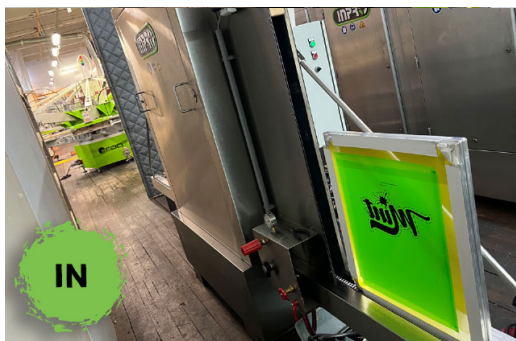

IMPROVED IMAGING, DIALED-IN DEVELOPING & RECLAIMED EFFICIENCY

Our entire screen department has been upgraded & automated, and quite an upgrade it is!

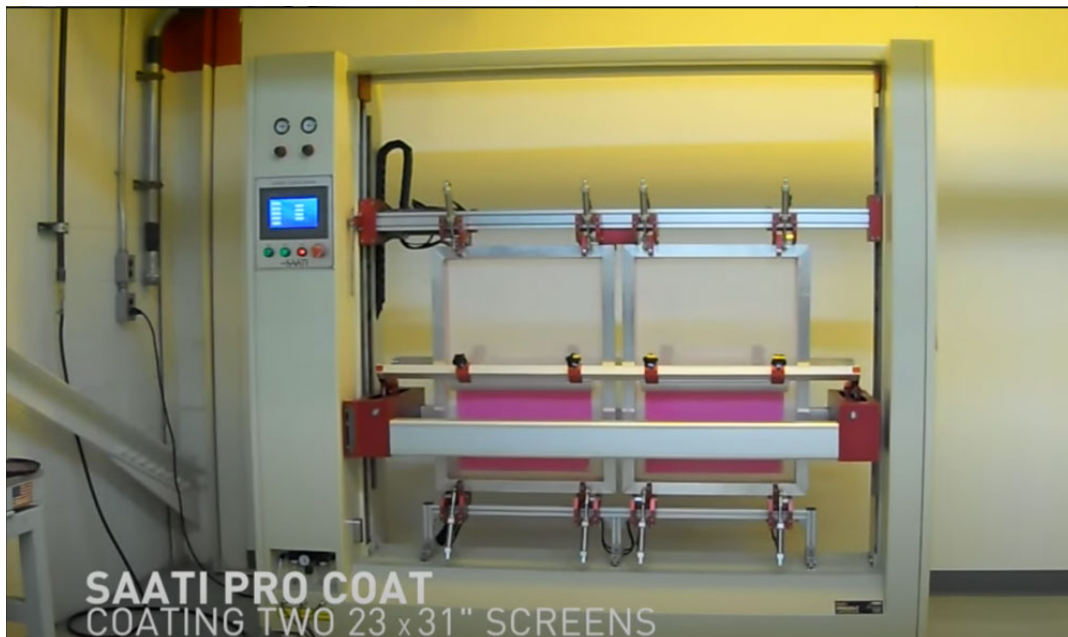

CTS is the name.. crisp lines & high detail imaging is its game. This Computer-To-Screen unit prints your designs in hot wax on screens in the first step to bringing your designs to life. It eliminates plastic waste, speeds up on press setups & enables finer detail and image sharpness.

Washing out fresh screens is a blast with this puppy. Every job runs through this to help us prepare screens (create stencils) for your print run.

Our new screen reclaim machine is the perfect shop friend ... reliable, fast, and shiny! This machine cleans our screens after a print run so that they can be used for the next one. Sort of like taking the ol' mini van to the drive thru car wash. Basically a belt fed pressure washer on steroids in a box, this unit cleans up a dirty job and eliminates chemical exposure. And it uses significantly less time, water, chemical & electricity than the old manual scrub & spray 'em down method.

On top of all of that, we're awaiting one more robot to round out the

family. This guy lays the foundation for a great screen. It's an automatic screen coater that provides optimum consistency to give us repeatable results in every step that the screens travels – from prep to print. Helps keep that tennis elbow from flaring up too!

A great print starts with a great screen.

WE ALSO...

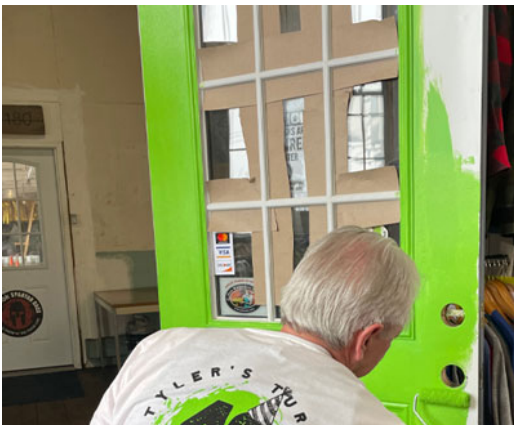

GREW THE ART DEPARTMENT

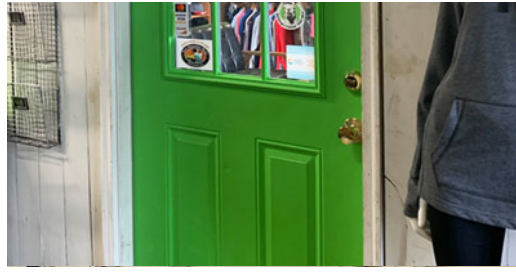

Meet Courtney! She's coming to us with screen printing experience and she jumped right into her role in our art department. We are psyched to have her on our team!

OPENED MINT'S TINY LIBRARY

LOOK at this adorable addition to our showroom! Next time you come visit check it out, you might find the perfect read.

CHEERY NEW DOOR COLOR!

UPGRADED OUR CUTS

ADDED OUTDOOR CHARM

We upgraded our vinyl cutter to keep up with the piles of custom uniforms we've been churning out this spring!

Getting outside for lunch keeps us fresh and focused the rest of the day. Feel free to swing by and enjoy it if you are in the neighborhood!

Tie-dye Time

If you are looking for a fun way to bring people together and delight kids and adults alike, tie-dye is ALWAYS a good place to start.

We offer tie-dye packages, so you can START with custom gear, and ... well, *make it even more custom.* Start with your one color logo printed on the item of your choice.

TIE-DYE PACKAGES

WE  OUR PETS

Can't be argued ...

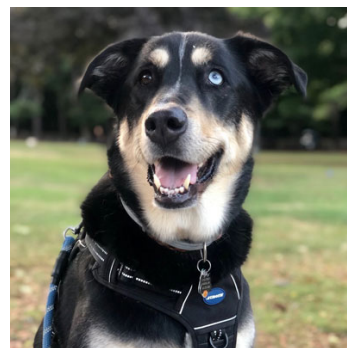

We're a bunch of animal lovers! Life wouldn't be nearly as grand without these furry friends. We thought we should introduce the fur behind our smiles.
